DISPATCH NO. HUL-W-185

TO Chief of Station, Lincoln

DATE APR 9 1954

FROM Chief, WH

SUBJECT { GENERAL LABOR
SPECIFIC Labor Propaganda

Rybat/PBSUCCESS

1. The following is presented for the consideration of Lincoln:
2. It is suggested that the SYNCARP group undertake propaganda efforts exclusively directed at organized labor with the object of acquainting them with the position of the group. The material should be prepared by individuals prepared to write in forceful, imperative language and acquainted with the legitimate aspirations of organized labor. Emphasis should be placed on positive themes and relegating the perversions of the labor movement by the present WSBURNT regime to BGGYPSY perversions. The issue of BGGYPSY should not take precedence over the positive matters.
3. Format of the propaganda is suggested to be a large wall news letter consistent with WSBURNT practice. Attached is an example of one widely circulated among Spanish-speaking persons in this country. If possible, a union label or some local indicator that union members have printed up the news sheet should be affixed to the publication.
4. The pending labor exile meeting in Mexico City could act as the spark for launching this effort.
5. Station's comments are requested.
